Flowdowns for Prime Contract N00030-20-C-0101, FY '20 TRIDENT II Life Extension 2 (D5LE2)

252.234-7002, DFARS 252.242-7005, and the EVMS guidelines contained in Electronic Industries Alliance Standard 748, Earned Value Management Systems (EIA-748-C). To establish the integrated performance management system, the EVMS shall be linked to and supported by the Contractor's management processes and systems to include the Integrated Master Plan (IMP), Integrated Master Schedule (IMS), Contract Work Breakdown Structure (CWBS), change management, material management, procurement, cost estimating, and accounting. The correlation and integration of these systems and processes shall provide for early indication of cost and schedule problems, and their relation to technical achievement. (IMPR CDRL DI-MGMT-81861A approved per Strategic Systems Programs Instruction (SSPINST) 7720.4)

(b) Integrated Baseline Review (IBR). The Contractor shall engage jointly with the Government's program manager in IBRs to evaluate the executability of the contract's planned performance measurement baseline. For any annual contract, the IBR shall be conducted no later than 90 days after (1) contract award, (2) the exercise of significant contract options, and (3) the incorporation of major modifications. IBRs shall be conducted on subcontracts that meet or exceed the EVM application threshold by the prime contractor with active participation by the Government. (See DFARS 252.234-7002 and SSPINST 7720.4.)

(c) Integrated Master Plan (IMP). The IMP is a mandatory event-based plan depicting the overall structure of the program and the key processes, activities, and milestones. It defines accomplishments and criteria for each event. The Contractor shall manage the execution of the program using the IMP and the associated IMS as day-to-day execution tools and to periodically assess progress in meeting program requirements. The Contractor shall maintain and update the IMP through a sound technical management approach to meet the requirements of the program's Systems Engineering Plan (SEP) to reflect progress, maturity, and changes in the ongoing program. The IMP can be created as a view within the IMS, or using a separate tool.

(d) Integrated Master Schedule (IMS)

(1) The Contractor shall develop and maintain an IMS per the requirements of DI-MGMT-81861A. The IMS shall be directly traceable to the IMP. The schedule shall contain the planned events and milestones, accomplishments, completion criteria, activities, and interdependencies from contract award to the completion of the contract. The Contractor shall quantify risk, at a minimum, in hours, days, or weeks of delay and provide optimistic, pessimistic, and most likely duration for each IMS risk activity and event. (IPMR CDRL DI-MGMT-81861A approved per SSPINST 7720.4)

(2) No specific format or scheduling technique is prescribed. The IMS shall have the following characteristics:

(i) It shall be traceable to the IMP and the contract work breakdown structure.

(ii) It shall be detailed sufficiently that critical and high risk efforts are identified and planned as realistically to assure executability. The IMS shall be extended and expanded as the contract or agreement unfolds and additional insight is needed (for example, rolling wave detail planning or scope changes).

(iii) It shall include the efforts of all activities, including Contractor or supplier and subcontractor.

(iv) It shall present a current, integrated view of the contract or agreement that is consistent with resource plans, IMPRs, and other approved documentation.

Flowdowns for Prime Contract N00030-20-C-0101, FY '20 TRIDENT II Life Extension 2 (D5LE2)

(v) It shall reflect those risks identified and documented in the Contractor’s risk management plan.

(e) Use of IMP and IMS. The Government shall use the IMP and IMS to evaluate contract performance with respect to the credibility and realism of the Contractor’s approach to executing the effort within cost and schedule constraints. The Contractor shall report on program progress in accordance with the IMP at each program management review, at selected technical reviews, and at other times at the Government’s request.

(f) Contract Work Breakdown Structure (CWBS). The Contractor shall maintain the CWBS and dictionary in accordance with DI-MGMT-81334D using MIL-STD-881C per the CDRL. The CWBS shall provide the basis for further extension by the Contractor to lower levels during the performance of the contract. The Contractor shall extend the CWBS to the appropriate level required to provide adequate internal management, surveillance, and performance measurement, regardless of the reporting level stipulated in the contract for Government visibility. The Contractor shall use the CWBS as the primary framework for contract planning, budgeting, and reporting of the cost, schedule and technical performance status to the Government. The Contractor shall analyze the system requirements generated and translate them into a structure representing the products and services that comprise the entire work effort commensurate with the acquisition phase and contract requirements. The Contractor’s team or organizational entity responsible for the systems engineering of the system shall prepare the technical elements of the extended CWBS. The Contractor shall update the CWBS during the execution of the contract. More detailed reporting of the CWBS shall be required for those lower-level elements that address high-risk, high-value, or high-technical-interest areas of a program. Changes to the CWBS or associated definitions at any reporting level shall require approval by the Contracting Officer via the cognizant Technical Branch and the WBS Steering Group. Changes to the existing WBS structures shall not be requested without documented technical or programmatic rationale.

(g) Performance Management System. The Contractor shall utilize its existing, internal performance management system to plan, schedule, budget, monitor, manage, and report cost, schedule, and technical status applicable to the contract. The Contractor’s internal performance management system shall serve as the single, formal, integrated system that meets both the Contractor’s internal management requirements and the requirements of the Government for timely, reliable, and auditable performance information. The Contractor’s system shall satisfy the Industry Standards delineated in the EIA-748, the EVM General Provisions of the contract and this Statement of Work (SOW). The Contractor shall not establish a separate or unique internal performance management system for purposes of planning, scheduling, directing, statusing, recording, or reporting progress under this contract. The Contractor’s system shall meet the guidelines and be maintained in accordance with the requirements of the EVMS Standard as described in this contract, under DFARS clause 252.234-7002, and the Contractor’s own documented EVMS Description.

(h) Application to Subcontractors. Per SSPINST 7720.4, the Contractor shall flow-down EVM requirements to subcontractors either meeting the applicable thresholds, performing critical tasks, or both. The performance information reported by the subcontractors shall be incorporated and integrated into the Contractor’s management systems. The Contractor shall be responsible for reviewing and assuring the validity of all subcontractor reporting.

1. This clause applies only to the extent this contract is a procurement on behalf of the United Kingdom and applies in lieu of any "Indemnification Under Public Law 85-804" or "Indemnification Under 10 U.S.C. 2354" clause in this contract.

2. For purposes of this clause:

(a) "Contractor's principal officials" means directors, officers, managers, superintendents, or other representatives supervising or directing--

(2) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed; or

(3) a separate and complete major industrial operation in connection with the performance of this contract.

(b) "Nuclear risks" are those risks attributable to the radioactive, toxic, explosive, or other hazardous properties of "special nuclear material," "by-product material" or "source material," as such materials are defined in the Atomic Energy Act of 1954, as amended.

(c) "Unusually hazardous risks" are the risks of explosion, detonation, burning, or propulsion attributable to the utilization of high energy propellants in (i) POLARIS or TRIDENT missiles or of any component thereof, or (ii) propellant-powered POLARIS or TRIDENT test missiles or of any component thereof, or (iii) any other component or subcomponent of the POLARIS or TRIDENT weapon systems which uses high energy propellants.

3. Regardless of any other provisions of this contract, the Government shall, subject to the limitations contained in the other paragraphs of this clause, indemnify the Contractor against--

(c) Loss of, damage to, or loss of use of Government property, excluding loss of profit.

4. This indemnification applies only to the extent that the claim, loss, or damage (a) arises out of or results from a risk defined in this contract as unusually hazardous or nuclear and (b) is not compensated for by insurance or otherwise. Any such claim, loss, or damage, to the extent that it is within the deductible amounts of the Contractor's insurance, is not covered under this clause. If insurance coverage or other financial protection in effect on the date the approving official authorizes use of this clause is reduced, the Government's liability under this clause shall not increase as a result.

The Contracting Officer may also approve indemnification of subcontractors at any lower tier, under the same terms and conditions. The Government shall indemnify the Contractor against liability to subcontractors incurred under subcontract provisions approved by the Contracting Officer.

7. The rights and obligations of the parties under this clause shall survive this contract's termination, expiration, or completion. 7. Any changes to the third-party contractor list above, which requires the Contractor to enter into a new direct agreement, will be communicated via contract modification. The Contractor will not be provided access to the additional third-party contractor's proprietary information until such time as a properly executed copy of the agreement is provided to the Procuring Contracting Officer in accordance with FAR 9.505-4.

FAR 52.230-2, Cost Accounting Standards (DEVIATION) (May 2018) (The version of the clause in DoD Class Deviation [2018-O0015](#) applies in lieu of the standard FAR version of the clause.)

(a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR Part 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall—

(1) (CAS-covered Contracts Only) By submission of a Disclosure Statement, disclose in writing the Contractor's cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(2) Follow consistently the Contractor's cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the change must be applied prospectively to this contract and the Disclosure Statement must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with paragraph (a)(4) or (a)(5) of this clause, as appropriate.

(3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR Part 9904, in effect on the date of award of this contract or, if the Contractor has submitted certified cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost

or pricing data. The Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4) (i) (Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to paragraph (a)(3) of this clause, the Contractor is required to make to the Contractor's established cost accounting practices.

(ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of paragraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.

(iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621(a)(2) of the Internal Revenue Code of 1986 (26 U.S.C. 6621(a)(2)) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to disclose to the Government.

(b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS in 48 CFR 9904 or a CAS rule or regulation in 48 CFR 9903 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under 41 U.S.C. chapter 71, Contract Disputes.

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all CAS in effect on the subcontractor's award date or if the subcontractor has submitted certified cost or pricing data, on the date of final agreement on price as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data. If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation shall be inserted. This requirement shall apply only to negotiated subcontracts in excess of \$2 million, except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR 9903.201-1.
